

TECHNICAL DETAILS  
**FROZEN GRILLED PEPPERS  
SLICES**  
**7X1kg**  
REV.2 09/2020

### 1. PRODUCT

Product name :	Frozen Grilled Peppers Slices
Line :	Food service
Category :	Slices
Boxes:	7X1 kg
Conservation °C :	-18°C
TMC :	24 months from packaging
Origin :	Italy

### 2. QUALITY CHARACTERISTICS

The raw material must come from good quality fresh peppers with the following characteristics: zucchini slices are obtained from fresh, well cleaned raw material. The product before being frozen are cut and grilled. The product was grown following the disciplinary integrated pest.

meat :	red and jellow. Soda and fibrous
smell:	Typical of the species
flavor :	Typical of the species

#### G.M.O. STATUS FREE

According to regulations EC 1829/2003 and 1830/2003, the raw materials used in the production of this product do not contain or consist of GMO's, and they are not produced from GMO's.

### 3. Chemical-physical CHARACTERISTICS

The product complies with the regulations on food security:

Radioactivity:	Within the limits of the law (Reg. CE 737/90/CE e succ.)
Nitrates and nitrites:	Within the limits of the law (Reg. CE 1881/06 e succ.)
Heavy metals:	Within the limits of the law (Reg. CE 1881/06 e succ.)
Pesticides:	Within the limits of the law (Reg. CE 178/09/CE e succ.)

### 4. MICROBIOLOGICAL CHARACTERISTICS (maximum)

- CBT:	< 10 <sup>6</sup> / g
- Coliforms:	< 10 <sup>4</sup> / g
- E. Coli:	< 10 <sup>2</sup> / g
- Moulds and yeasts:	< 10 <sup>3</sup> / g
- Salmonella:	absent / 25 g
- Listeria:	absent / g

### 5. DEFECTS 'RAW MATERIAL

Any imperfections that the product may be derived from its naturalness, not being the products subject to any chemical or physical process different from freezing.

#### 6. NUTRITIONAL VALUES (average values per 100g)

Energy:	170 kJ – 40 kcal
Proteins:	1,4g
Carbohydrates:	6,5g
Fat:	0,5g
Salt:	< 0,5g

#### 7. METHOD OF PREPARATION FOR CONSUMPTION

The product should be consumed after cooking

#### 8. STORAGE TEMPERATURE

Cold stores stocking < = - 18° C

Refrigerated at point of sale < = - 18° C

Home filing:

< = -18° C The product maintains the best characteristics when consumed by the specified date in the package.

< = - 12° C The product must be consumed preferably within one month.

< = - 6° C The product must be consumed within one week.

In the frozen compartment to consume within 3 days.

Once defrosted do not refreeze the product. It can be stored in a refrigerator.

**TRANSPORT TEMPERATURE** < = - 18° C. It transported in controlled temperature as required by D.M. 493 dated 25/09/1995 regarding temperature control of frozen food.

#### 9. PACKAGING

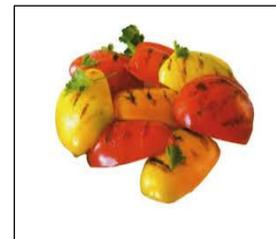

The information contained in this datasheet are subject to change according to the period of production and on a customer's specific request. This document contains confidential information owned by the GREENS FOOD SpA. Any use by third parties without the authorization of the issuer will be prosecuted by law.

The material that makes up envelopes and packaging used to contain our products, complies with the following European and Italian Legislation and are intended to come into contact with food (Reg. 1935 / 2004CE; Reg. 1895/2005 / EC; Reg. 10 / 2011 / CE-DM 21/03/1973 and subsequent Presidential Decree 777/82 and subsequent amendments).
